

# Dunkys Day Nursery

May/June 2022

## Baby room

Now the warmer weather is upon us, our Babies will be enjoying more time playing outside, enhancing the bright colours Spring has to offer while doing plenty of Spring related activities. Babies will be doing plenty of planting over the coming weeks where they can watch their plants grow and look at all their bright and beautiful colours. This also helps them to explore the natural environments of the outdoors while still enjoying the warm weather. Babies have had lots of new starters so we will be helping them settle and build new friendships with the other children. Going into June, Babies will be focusing on Father's Day. They will be doing plenty of exciting activities such as Father's Day crafts and stay and plays.

## Toddlers

Toddlers have been focusing on the warmer weather and how the trees starting to blossom. The children have been spending as much time outside as possible, by exploring the forest school garden and collecting rocks, sticks and leaves so they are able to talk about the natural environment and the different textures each object has. Toddlers are also looking forward to celebrating Space Day. They will be doing many crafting activities such as making spaceships, learning about astronauts, and learning about the moon and stars. Going into June, Toddlers will be doing plenty of different crafting activities based around Father's Day and the Queens Jubilee. The children will have the opportunity to make crowns at home and bring them into nursery to showcase their designs. We can't wait to see them all.

## Pre-school

Pre-school have been having lots of fun in the forest school garden by collecting natural materials to make herb cakes out of playdough. Pre-school have also been exploring the tuff trays and invitations to play learning about our world. This included sea life, on the farm and mini beasts. Pre-school were able to have plenty of fun playing with the tuff trays but also still learn about the animals that live in the sea, the animals that live on the farm and the mini beasts that live in the soil and grass. Pre-school have been engaged in emotion stone painting. They would collect a stone from our forest school garden and paint their emotions using colours or faces. This helped the children understand the different emotions all while this being a fun learning experience for the children. Going into June, Pre-school will be learning about World Environmental Day. The children will be doing plenty of activities around this such as what materials we recycle

## Welcome:

Dunky's Nurseries would like to welcome our newcomers:

**Babies:** Cooper, Jacob, Sebastian, Autumn, Finn, Penny and Miley.

**Toddlers:** Georgie, Elizabeth, Logan, Betty, Olive, Max, Reggie, Evie and Penelope.

**Preschool:** Conroy and Harry A.

# Dunkys Day Nursery Newsletter

## Festivals and Events

These are some of the events we will be celebrating throughout the months of May and June:

- Tuesday 3<sup>rd</sup> May - May Day
- Friday 6<sup>th</sup> May - Space Day
- Friday 20<sup>th</sup> May – World Bee Day
- Wednesday 1<sup>st</sup> June – Queens Jubilee Royal Garden Party
- Monday 6<sup>th</sup> June – World Environmental Day
- Wednesday 8<sup>th</sup> June – World Ocean Day

We are asking kindly if all parents could write us a review on the day nurseries website. The day nurseries website is a tool that perspective parents will access and compare nurseries in their local area.

Reviews from yourself really help give them a true reflection and account of our nursery and staff and why you have chosen us over others you may have seen.

Your help and support are appreciated.

Many Thanks.
